

# ISO 22000:2018 Bridging Course

## WORKSHOP

### OVERVIEW

The updated version of ISO 22000 was published in June 2018. Companies certified to the ISO 22000:2005 standard have 3 years to transition towards ISO 22000:2018 certification.

This workshop takes the delegates through the new revisions, clauses by clause, and provides guidance on how to address the new requirements within the organisations' own Food Safety Management System.

Videos, discussions and activities will encourage participation as new concepts such as; the process approach, PDCA cycle, risk based thinking, documented information and relevant interested parties are introduced. This is a jam-packed workshop aimed at providing practical guidance to get organisations started with the ISO 22000:2018 transition process.

### WHO SHOULD ATTEND?

Quality Assurance, Food Safety Team, Departmental Managers

### PREREQUISITES

The course is aimed at delegates who already have a good working knowledge of GMP and HACCP.
