

PREREQUISITE PROGRAMMES TRAINING WORKSHOP

OVERVIEW

This course provides an overview of the PRPs (prerequisite programmes for HACCP) in a Food Manufacturing environment and is based on the GFSI, ISO/TS 22002-1 and the SANS 10049 standards. The course provides an understanding of the role of PRPs/GMPs in the Food Safety Management System. The course can be used as part of annual refresher training or induction training. The Implementing HACCP Workshop follows on from the PRP Workshop.

WHO SHOULD ATTEND?

Food Production Staff, QC, Maintenance, Food Safety Team, Prospective/New Food Business Owners, Management or any person working in the food business who requires a sound general knowledge of PRPs.

PREREQUISITES

This course is fast paced. All delegates attending should have a basic level of literacy.
